

AMENDMET No. 01
to
BASIC ORDERING AGREEMENT No. INL_BOA-008-16-2012
between
Idaho National Laboratory
and
Anixter Inc.

INTRODUCTION

This Amendment No.01 to Basic Ordering Agreement No. INL_BOA-008-16-2012 is entered into by and between the Idaho National Laboratory (hereinafter called "contractor") and Anixter (hereinafter called "seller").

PURPOSE

The purpose of this Amendment is to:

- Amend Article 3

AGREEMENT

Article 3 – Fixed Prices

Article 3, is hereby deleted in its entirety as written and replaced with the following:

Contractor shall be entitled to purchase goods and services listed in Attachment B at the prices set forth in the Agreement.

Prices set forth in Attachment B shall be fixed until January 1, 2014. Seller agrees to review pricing every 6 months no later than last business day of each 6 month period thereafter to determine ICPT's top items to be included in Attachment B. These items will be offered to all Contractors at a 4-15% target discount off GSA pricing in effect at the time and shall remain fixed for 6 months.

In addition to the items identified in Attachment B the Seller agrees to extend a target discount of 4-15% off then-current GSA prices for up to 50 items selected by a Contractor (hereinafter called "Contractor-Specific Items"). The discounted pricing for Contractor-Specific Items shall be effective for only those items delivered to that Contractor location. This item list may go above 50 items if needed.

All other items available through the Seller's catalog shall be priced in accordance with the Seller's GSA Schedule GS-07F-0145V and GS-35F-0428X in effect at the time of the order. The Contractor represents and warrants that it has obtained written authorization from the Department of Energy to purchase from the Seller's GSA Schedule. Due to the significant commodity component of many items offered (Copper, Steel, PVC, etc) Anixter reserves the right with 30 days notice to increase any item that has a significant cost increase (over 5%) from the Manufacturer OEM. In such cases Anixter would only raise ICPT price by the amount the OEM increased their cost. Anixter would present with any such notice documentation from the Manufacturer OEM of cost increase as reflected in their published list prices.

By entering into this BOA, Seller warrants that the pricing stated herein is not greater than that charged Seller's similar customers for like quantities for the same or similar materials under like conditions of sale during a similar

period of time. INL and/or the U.S. Government shall have the right to examine Seller's records to ensure compliance with this warranty. Seller agrees to refund any amount paid by the contractor which exceeds the price charged.

All other terms, conditions, and provisions of the Subcontract shall remain in full force and effect. The parties have executed this Amendment No.01, effective as of the date of the Subcontractor's signature.
