

Attachment C- Small Business Plan

Small Business Concern

For this strategic agreement CDW•G has assembled a diverse team of twelve small businesses. CDW•G confirms that our proposed pricing allows our small business partners to sell to DOE Contractor's at the ICPT agreed upon pricing.

Should a DOE Contractor request or require a specific small business partner, outside of our Federal Partner Network, CDW•G would reserve the right to re-negotiate the pricing Terms and Conditions for that recommended partner with the ICPT.

Anacapa Micro Products, Inc  	Anacapa Micro Products, Inc. is a HUBZone-certified small business, reseller, and integrator of IT hardware and software headquartered in Oxnard, CA. Since 1991, they have offered the government and prime contractors exceptionally low-risk delivery of capabilities. Anacapa holds such federal contracts as NASA SEWP V, NITAAC NIH CIO-CS, and DHS FirstSource II, and is a small business supplier to Lawrence Berkeley National Labs.
CompuSmart 	CompuSmart is a Small Business Supplier to contractors at Idaho National Laboratory (INL), a Department of Energy site, since 1991. CompuSmart has 13+ years' experience with the B2B website for INL. CompuSmart is a small business partner with CDW•G, supplying contractors at INL with a wide range of computer, electronic, and software products. They are a holder of the joint Department of Energy Integrated Contractor Purchasing Team (ICPT) agreement with CDW•G.
CTG Federal 	CTG Federal is an SBA certified small business, operating under primary NAICS 541519 for Information Technology Value-Added Reseller. CTG exists to drive digital transformation for our U.S. Federal customers. We bring together innovative hardware, software and top-flight service capabilities to help government enterprises solve their biggest challenges. Our customers attain results including better addressing mission needs, reducing costs and unlocking new possibilities with digital infrastructures that are smart, secure, scalable and responsive.
Epoch Concepts LLC   <i>A Certified Service-Disabled Veteran Owned Small Business</i>	Founded in 2006, Epoch Concepts is a Service-Disabled Veteran-Owned Small Business (SDVOSB) offering best-of-breed technologies to the Federal Government and its community. Systems engineers from the community founded Epoch, allowing it an inherent understanding of its mission's critical nature.

<p>Mazda Computing</p>  	<p>Mazda Computing has 10+ years' experience providing information technology solutions to governments, intelligence agencies, rising startups, and universities worldwide. They design, build, and service custom Intel and AMD Rackmount Servers, Workstations, Storage, and High-Performance Computing solutions to fit your needs. Mazda maintains a specialization in Intel HPC Data Center, and they are an AMD EPYC Elite Partner, and an NVIDIA Compute Partner. Mazda Computing currently holds a JIT Contract at Sandia National Labs and BPA Agreements with NASA Ames and NASA Goddard.</p>
<p>S8tec LLC</p>  	<p>S8tec is a newly formed organization (2019). However, leadership has been serving the DOE community for over 20 years. Past DOE coverage included a PSG specialist at HP, an Account Executive (AE) at CDW•G, and an Account Executive at Symantec/Veritas helping to ensure security and data protection for DOE. S8tec has established many executive-level relationships across government and industry with their primary focus on virtualization, data protection, and supplying creative business solutions to complex contracting problems.</p>
<p>Sigma Science, Inc.</p>  	<p>Sigma Science is an 8(a) certified small business that provides comprehensive engineering and technology services to federal and commercial clients. Since 1996, it's delivered technical expertise and provided innovative solutions to complex problems across the national security enterprise, focusing on the nuclear industry, Department of Energy, National Nuclear Security Administration, and the Department of Defense. Sigma Science has proven leadership and demonstrated experience at multiple sites across the DOE/NSA complex, including SNL, LANL, NNSS, ORNL, PNNL, SRS, WIPP, Y-12, and Pantex, as well as the DoD including the Air Force Nuclear Weapon Center.</p>
<p>V3Gate, LLC</p>   <p>A Certified Service-Disabled Veteran Owned Small Business</p>	<p>V3Gate is a recognized IT solutions provider for US Public Sector, healthcare, and education customers. A Service-Disabled Veteran-Owned Small Business (SDVOSB) and Minority-owned Business Enterprise (MBE), V3Gate specializes in emerging technologies that help clients simplify their infrastructure, reduce costs, and create a more agile IT environment. Their dedicated team of professionals has earned a reputation for exceptional work. V3Gate is actively working with FERMI labs and holds a BOA with ORNL.</p>
<p>GovSmart, Inc.</p>  	<p>GovSmart, Inc. is a full scale, ISO 9001-certified provider of IT products and related services to the Federal Government and its prime contractors. They simplify IT procurement while offering the most competitive pricing on a wide variety of products from major manufacturers. GovSmart offers all types of hardware and software and specialize in providing certain custom technology services as well. They currently are a named vendor on GSA Schedule 70, NASA SEWP V, and NIH NITAAC CIO-CS.</p>

<p>ATP Gov, LLC</p> 	<p>ATP Gov is a leading provider of information technology solutions for the federal government. We pride ourselves on the depth and breadth of our partnerships Knowledgeable Staff with over 200 Certifications across multiple disciplines. In depth understanding of Gov/Ed procurement models. Woman-Owned Small Business. Section 508 Compliant Green Technology Advocate. ISO 9001:2015, 14000:2015, 28000:2017 Certified.</p>
<p>Impres Technology Solutions, Inc.</p> 	<p>IMPRES knows the Federal marketplace. As a leading IT solutions provider, IMPRES Technology Solutions, combines decades of technological and service expertise with a thorough understanding of the federal procurement and contracting process to implement the best possible IT solution for your agency. IMPRES is HUBZone certified and holds Top Secret Clearance along with major GWAC vehicles, such as GSA MAS, NASA SEWP V (JV), NIH CIO-CS, 2GIT and as well as numerous IDIQ and BPA contract vehicles.</p>
<p>Novateur Corporation</p> 	<p>Novateur Corporation, an SBA certified 8(a) management consulting firm, specializes in innovative and problem-solving solutions. As trusted business partners to various industry clients, we provide effective project management, financial management, and state-of-the-art IT solutions. Our strategic and agile approach allows us to provide our clients with viable solutions to the toughest problems. From overseeing complex projects to providing strategic financial advice and implementing IT endeavors, Novateur is committed to providing customized solutions that help our clients achieve the best possible outcome. We understand the Government's unique requirements and constraints. We excel in improving overall performance and growth by bringing a fresh perspective to our approach.</p>
	<p><i>Synergist Technology supports federal agencies in the secure adoption, management, and governance of artificial intelligence across the full AI lifecycle—from procurement and deployment to continuous oversight and improvement.</i></p> <p><i>Leveraging Zero Trust principles, Synergist's AFFIRM SaaS platform delivers real-time monitoring, risk management, and compliance automation to ensure AI systems meet evolving federal requirements, including OMB M-25-21 and internal agency controls.</i></p> <p><i>AFFIRM enables agencies to maintain continuous visibility into AI performance, enforce security standards, and automate governance workflows—empowering responsible AI use while minimizing legal, operational, and reputational risk</i></p>

Optivior Technologies, LLC (Optivior), a certified woman-owned small business (WOSB) and an ISO 9001:2015 certified company, is a Systems Integrator that has developed a reputation for excellence in providing products and services to the Federal Government. Optivior specializes in design, integration, and deployment of enterprise-wide information technology (IT) and communications solutions. Additionally, Optivior is an Open Trusted Technology Provider Standard (O-TTPS) (ISO/IEC 20243:2015) certified organization demonstrating our commitment to quality and supply chain risk management. With 21 years of relevant experience supporting the Department of Defense (DOD) and federal agencies' mission-critical IT requirements, Optivior delivers proven technology, engineering excellence, and experienced staff to improve communication, increase security, and reduce costs.

WESTWIND

Founded in 1992, Westwind Computer Products, Inc. provides comprehensive, integrated IT solutions to Federal Government agencies throughout the US and overseas.
